

Reducing Inequalities: Getting Results Flagship Programme

January - March 2017

If you are working to reduce the impact of inequalities on Belfast's communities, then this Flagship Programme could benefit you.

The programme has been designed to complement the work of the members of the Belfast Strategic Partnership and other partner organisations from the public, community and voluntary sector. It will be of particular interest to staff responsible for developing policy, commissioning services and delivering local action.

It will provide a platform to explore the most recent developments, and enable participants to reflect on their specific role and the capacity and knowledge of their organisation to influence the magnitude of 'striking' inequalities.

The Reducing Inequalities: Getting Results Flagship Programme will comprise four modules which will take participants from the identification and definition of inequality right through to the types of successful interventions from across the World Health Organization (WHO) European Healthy Cities Network which can be transferred to Belfast.

The programme will be facilitated by Erica Ison, WHO Expert Advisor and Specialist in Health Equity in All Policies, and Belfast Healthy Cities:

Module 1 Thursday 26 January 2017

Inequalities in Context - Setting the Scene

Addressing health inequalities in Belfast, this module will enhance understanding of inequalities and awareness of the effectiveness of current policies in tackling inequality.

Module 2 Thursday 9 February 2017

Collation and interpretation of the information on inequalities

Exploring the current information and data on inequalities, participants will better understand how to identify and interpret key sources of information.

Module 3 Thursday 23 February 2017

Integrating inequalities into policy development

Stressing the importance of factoring inequalities into policy development at the earliest stage, this module will provide greater understanding of the tools which can be used to integrate inequality into policy.

Module 4 Thursday 9 March 2017

Developing appraisal skills and applying the learning

Providing examples of good policy practice from elsewhere this module will highlight how Belfast can learn practically from other cities and regions, and how that knowledge and experience can be applied.

Places on this programme are limited to 25. Expressions of interest and completed application forms should be returned by Tuesday 20 December 2016.
